CECO Announces Robbie Burke as Senior Sales Representative for North Central US

FOR IMMEDIATE RELEASE

HOUSTON, TEXAS. MARCH 12, 2003 - Compressor Engineering Corporation, CECO named Robbie Burke as Senior Sales Representative for gas transmission companies in North Central US.

Burke will work from his home base in Big Rapids, Michigan and will represent gas transmission and oil refineries in Indiana, Ohio, Michigan and Kentucky. He will report to Vice President, Richard K. Hotze.

“Robbie brings over 20 years experience in both repair and service to the sales representative position,” said Hotze. “His gas pipeline experience, combined with an excellent track record of customer satisfaction makes him ideal for this region.”

Burke's career path has included working with companies such as Panhandle Industrial Company, Wesco Valve, and Nickles Industrial, which was acquired by Cooper Energy Services in early 2002.

Compressor Engineering Corporation (CECO), headquartered in Houston, Texas, was founded in 1964 and has grown to become the world's largest independent manufacturer of compressor and engine replacement parts. In 1977, CECO opened its New Orleans warehouse and sales office, and in 1980 added a sales office, warehouse, and repair center and in Odessa, Texas, which expanded again in 2002. Precision Repair - Baton Rouge was launched in 2003. Custom engineered components and repair is only a portion of CECO's solution packages. They also provide customized software solutions, testing, training and consulting. More information about CECO and its subsidiaries is available at www.ceconet.com.
